PROFILE

Second-year Computer Science MSci student at Loughborough University with a strong foundation in software development across multiple languages and a track record of delivering results under pressure. Winner of the Loughborough EDI AI Hackathon; participant at Oxford ETH, Hack Sussex and CS50 London events. Experienced in Python, Java, PHP, C, C++, SQL and web technologies, with practical knowledge of version control, cloud deployments and agile development. Demonstrated ability to lead, communicate clearly and build working prototypes in fast-paced environments.

EDUCATION

Computer Science MSci — Loughborough University

2024 – Present

- Year 1 Final Grade 2:1
- Relevant modules: Software Engineering, Embedded Systems (Arduino), Web Programming, Team Projects, Object Oriented Programming, Python Programming

De Lisle College, A Catholic Voluntary Academy

2017 – 2024

- A Levels: Computer Science (A), Mathematics (B), French (B), Physics (B)
- GCSEs: Seven grade 9s, one grade 8, two grade 7s — including Mathematics (8), English Language (9)
- AQA Extended Project Qualification: 46/50 (A*)
- Mandarin Chinese: HSK1 — 170/200

Français Niveau B2-C1, Institut d'études politiques de Paris (Sciences Po)

June - July 2026

- French Level B2-C1 course, at Sciences Po university, Paris (**76,5%**)
- Expecting to take the DALF C1 examination late 2026 / early 2027

WORK EXPERIENCE

Computer Science Tutoring

February 2025 - Present

Freelance

- Teaching students ranging from ages 9-18 on skills such as python, pseudocode and general computational thinking.

Amazon Step-Up Programme

July 2025

Amazon Corporate Office, Manchester

- Collaborated under time pressure to rapidly conceptualise, cost and present a new product idea to senior buyers, developing commercial awareness and pitching skills
- Completed professional networking and applications training; built relationships with peers and Amazon staff across the programme

Distributor

February 2025 – Present

Utility Warehouse (UW), London

- Market broadband, energy and mobile packages within the local community, managing customer relationships and resolving support issues

Waiter / Server

November 2024 – Present

Prestwold Hall, Prestwold Lane

- Serving wedding guests across high-pressure events, taking initiative and maintaining high standards of hospitality at partner venues

Second Line IT Support

July 2023

- Managed service tickets and resolved technical issues across an organisation of approximately 5,000 staff
- Developed strong interpersonal skills supporting users with varying levels of technical ability

HACKATHONS & EVENTS

- Loughborough EDI AI Hackathon 2025 - 1st place. Built an ElevenLabs-powered voice accent bias changer with a teammate and came first place.
- Oxford ETH 2025 - Built a blockchain-based tennis booking system
- Hack Sussex 2025 - Built a blockchain insurance tracking system
- CS50 London 2025 - Collaborated with Meta staff and CS50 team on introductory CS projects and mathematics
- CS50x (online) - 2022 Online course of Harvard's Introduction to Computer Science

KEY PROJECTS

Consultant Booking Website (PHP + SQL) — Dynamic website with intuitive GUI allowing users to view consultant availability; run on a local server using standard web programming

Performance Hall Event Manager (Java) — OOP-based GUI application enabling users to browse events, add tickets to basket and complete purchases

Fruit Frenzy 2D Game (Python / Pygame) — Fruit Ninja-style game built with Pygame using OOP paradigms, visual effects and JSON for parameter and score storage

SKILLS

Programming Languages: Python (5+ years), Java, PHP, C, C++, SQL, JavaScript, HTML, CSS, React, Kotlin for Android Development, Swift

Frameworks & Tools: Flask, Git, Google Cloud, AWS (introductory), Arduino

CS Fundamentals: OOP, data structures, algorithms, complexity analysis, lower-level programming (C)

Languages: French (A-Level, CEFR B2-C1, fluent); Mandarin (HSK1, extremely basic)

VOLUNTEERING

Peer Mentor — De Lisle College

November 2023 – April 2024

- Supported younger students with wellbeing and academic guidance

NCS Volunteering

August 2022

- Helped fundraise over £300 in a single day as part of a volunteer team
